

Easy Life Is Hard

They say we are given “only” what we can bear... That is unbearable... Are we just supposed to be offloading or do we have room for more? Somebody dies, the earth shakes... and someone else’s life carries on. Is everything that happens to us just a coincidence or is there a “higher power”? Or are we “just” born into a (in)convenient environment? Are we actually in control of our own lives or are we just naively pretending that we are the ones in charge? What about those empty and painful spaces in our lives?
