

Jana Farmanová — *Memory*

Her paintings are intimate, subjective and full of emotions, visualised into image stories, something like film frames. The narrative is often only suggested, unspoken, not fully revealed and open to interpretation. She captures a snapshot, a single moment in life which the painting freezes in time for “a while”, just like a photography does, which the painter actually often uses as sketches.

Nitra Gallery and the artist invite you to attend the exhibition **Memory**.
