

Parallel Worlds

The painter Oľga Paštėková presents her solo exhibition *Parallel Worlds* which focuses on the relationship of people and animals, but also the urban and natural environments. The artist researches how our developed civilisation and culture affect the indigenous and wild nature. How they influence and change it. How these two worlds coexist and where their borders lie. Do they overlap, do they exist in harmony, do they lead their parallel lives or do they push each other out?

Nitra Gallery and the artist invite you to attend the exhibition
